

TEEN PATTI HAND RANKINGS

3 Patti sequence chart — every hand from strongest to weakest, out of all 22,100 possible deals

1	  	TRAIL Three of a kind · Set · Trio	0.235% 52 hands · odds 1 in 425
2	  	PURE SEQUENCE Straight flush · same suit, in a row	0.217% 48 hands · odds 1 in 460
3	  	SEQUENCE Run · Straight · mixed suits, in a row	3.26% 720 hands · odds 1 in 31
4	  	COLOUR Flush · same suit, not in a row	4.96% 1,096 hands · odds 1 in 20
5	  	PAIR Double · two cards of one rank	16.94% 3,744 hands · odds 1 in 5.9
6	  	HIGH CARD No pair · highest card plays	74.39% 16,440 hands · odds 1 in 1.3

Sequence order — highest to lowest run

A-K-Q BEST	A-2-3 varies by app	K-Q-J #3	Q-J-10 #4	J-10-9 #5	10-9-8 #6
9-8-7 #7	8-7-6 #8	7-6-5 #9	6-5-4 #10	5-4-3 #11	4-3-2 #12

A-2-3 ranks second on most apps, but a few tables score it below 4-3-2 — check the in-game rules once per app.
The same order applies to pure sequences (same suit) and mixed-suit sequences alike.

Same hand type? Tie-breakers

- Trail vs trail: higher rank wins — A-A-A beats K-K-K; 2-2-2 is the lowest trail.
- Sequence vs sequence: the higher run wins (order above). Pure only loses to a higher pure or a trail.
- Colour / high card: compare the highest card, then the second, then the third. Suits never break ties.
- Pair vs pair: pair rank first, then the third card. Identical ranks all the way down = split pot on most apps.

Best hand: A♠ A♥ A♣ (trail of aces) · Worst hand: 5-3-2 of mixed suits · In Muflis the whole order flips.
